Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116,
98-170 and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Where does it stop? Since the short-sighted farmers of the late 1800s, who had not a clue what they were starting, cried for evening the playing feild by taking from the rich, taxation has continually increased and spread as industry within the U.S. has diversified.

And what is truly sad and very frustrating is that if our Government would use the tax money that is currently being received in an effecient and wise manner, our Government would be REDUCING taxes instead of looking for ways to increase them.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Annetta Shelton
